

Carlos Eduardo

Project Manager and Scrum Master

Project Manager with a strong background in Agile methodologies and solid experience as a Scrum Master. Skilled in leading teams, facilitating processes, and ensuring the efficient delivery of software projects. Proficient in backlog management, impediment resolution, and fostering continuous improvement. Committed to delivering strategic value and optimizing team performance to achieve outstanding results.

Work Experience

Scrum Master

Apr. 2024 - Present

Facilitated team communication, promoted Agile best practices, and removed impediments to ensure smooth project execution. Acted as a servant leader, protecting the team and fostering a culture of continuous improvement. Led Scrum ceremonies and applied Agile frameworks to enhance team efficiency and project delivery. Contributed to a government project, ensuring alignment with organizational goals and compliance requirements.

Software Engineer

Nov. 2024 - Present

Led the maintenance and enhancement of the system, implementing new features and managing data efficiently. Took full responsibility for migrating the entire system from PHP and Bootstrap to a more optimized and modern version using Vue.js. Refactored the entire codebase, applying Clean Code principles to improve performance, maintainability, and scalability.

Software Developer

Sept. 2023 - 2024

C# and .NET Developer specializing in ASP.NET, Angular, Dapper, Entity Framework, and SQL Server. Experienced in building and maintaining government systems, including ANTT, SEST SENAT, and SISRH. Proficient in implementing Elasticsearch, MVC architecture, and Clean Code principles to enhance system performance, scalability, and maintainability.

Education

- **Postgraduate Degree in Innovation, Artificial Intelligence, and Robotic Care**
2025 - 2026 (Present)
- **Postgraduate Degree in Process and Project Management**
2025 - 2026 (Present)

Work Experience

Software Developer Intern

Sept. 2022 - 2023

Full Stack Web Development Intern, contributing to sustainability systems and financial projects. Assisted in the development and optimization of services using C#, .NET, ASP.NET, MVC, SQL Server, Dapper, and Entity Framework. Gained hands-on experience with front-end technologies such as React and Angular, supporting the delivery of scalable and maintainable solutions.

Trainee

Jul. 2022 - Oct. 2022

Trainee Developer, responsible for migrating a system from PHP and Laravel to a new architecture using Java, Spring Boot, and Angular. Gained valuable experience in technical support and networking, troubleshooting issues, and ensuring system stability. Developed problem-solving skills while working in a dynamic and collaborative environment.
